## Fixing Detail

Fixed by others. Fix direct to a concrete slab or through pavers and into a concrete slab.

Depending on the location, the seating modules can be placed without them being fixed to a slab.

It features an unenclosed side, which needs to be positioned against a vertical flat surface.

---

## How to Specify

Select your batten finish  
Select your frame finish

---

## Care Instructions

### Hardwood

#### Cleaning

Remove any loose surface deposits with a soft bristled brush and wipe down with fresh water and a non-abrasive cloth.

#### Oiling

Oiling of timber will postpone natural greying, repel moisture, improve mould resistance, help maintain a smooth surface texture and enhance the grain and colour.

To maintain, lightly sand rough areas of timber and brush on one coat of timber decking oil every 6 months or as required.

### Powder-Coat

#### Cleaning

Carefully remove any loose surface deposits with a wet sponge or soft bristled brush.

Use a soft (non-abrasive) cloth or brush and a diluted solution of mild detergent and warm water.

Ensure surfaces are thoroughly rinsed with clean fresh water after cleaning to remove all residues.

Never use thinners, abrasive cleaning agents, alcohol-based, acid or alkali cleaning agents.

---

## Additional Comments

Hardwood is treated with a UV-resistant oil finish.

Integrated lighting and power on request.
